

Disposal at Tamala Park

Sorting Your Load

Drop off as much material as possible through our free drop-off area before proceeding over the weighbridge to dispose of in landfill. This ensures you pay the least amount in fees and helps conserve natural resources through material recovery and reuse.

To save yourself time, we suggest you **sort your load** before you leave home to match the order that you will drop off your items. See diagram below.

*Note that items are accepted at the discretion of the attendant.

Any remaining waste may go over the weighbridge to landfill. To access the weighbridge, exit the Free Drop off area and then turn left at the main junction.
