NOTES FOR VARIATIONS - INCOME STATEMENT BY NATURE AND TYPE

| Note # Description of Item | | Nature of variance where: 1. Member Revenue (Aggregated) variances greater than \$250,000. 2. Non Member Revenue (Aggregated) variances greater than \$100,000. 3. Other Revenues Charged (Per Line Item) variances greater than \$100,000. 4. All Expense variances (Per Line Item) greater than \$100,000. | | | |
|----------------------------|--|--|--|--|--|
| 1 | User Charges - Members and Non Members | Total user charges for the year to date are below budget by \$2.87m due to less than budgeted member council's waste of \$2.5m, mainly the City of Stirling and City of Wanneroo and non-member waste being \$352k below budget as trade customers find alternate waste disposal options. | | | |
| | | The Member Councils have delivered less processable tonnes (4,388t) and less non processable tonnes (11,721t) than budget year to date. The largest of each waste stream, relating to the City of Joondalup and City of Stirling. | | | |
| 2 | RRF Operating Expenses | RRF Other Operating Expenses is \$191k below phased budget due to 2,590 tonnes of less waste delivered abated by 3,900 tonnes residues more than phased budget. | | | |
| 3 | Depreciation | Depreciation is \$378k above budget due to revaluation of assets not included in the adopted budget. | | | |

NOTES FOR VARIATIONS - INCOME STATEMENT BY NATURE AND TYPE

Depreciation

| Note # | Description of Item | Nature of variance where: 1. Member Revenue (Aggregated) variances greater than \$250,000. 2. Non Member Revenue (Aggregated) variances greater than \$100,000. 3. Other Revenues Charged (Per Line Item) variances greater than \$100,000. 4. All Expense variances (Per Line Item) greater than \$100,000. |
|--------|--|--|
| 1 | User Charges - Members and Non Members | Total user charges for the year to date are below budget by \$2.84m due to less than budgeted member councils waste of \$2.4m; mainly the City of Stirling and City of Wanneroo. Non-member waste being \$388k below budget as trade customers find alternate waste disposal options. The variance has remained static from last month's year to date result due to the City of Wanneroo delivering unbudgeted recyclables within month. |
| | | The Member Councils delivered less processable tonnes (4,504t) and less non processable tonnes (12,281t) than budget year to date. The largest of these waste streams, relating to the City of Joondalup, City of Stirling and City of Wanneroo. |
| | | RRF residues have delivered more than anticipated (4,922t) year to date. The increase for the year to date is due to more residues going into Tamala Park due to less organic waste being delivered to the RRF. |
| 2 | RRF Operating Costs | RRF Other Operating Expenses is \$526k above phased budget due to the contracted waste diversion target dropping from 51.3% to 43.3%. |

Depreciation is \$428k above budget due to revaluation of assets not included in the adopted budget.

Waste to Landfill Tonnages Report for the period to 31 December 2019

<u>Members</u>

The Member Councils' processable waste for the financial year to date is 4,504 tonnes below forecast, primarily as a result of the City of Joondalup. (2,972t).

The non processable waste for the year to date is 12,281 tonnes below the financial forecast, primarily as a result of the City of Stirling (8,873t) and City of Wanneroo (3,422t).

These variances leave the MRC 8.75% behind in its budgeted waste receipts from Member Councils for the financial year to date 2019/2020. Overall the Member Council waste is 11,863 tonnes below the phased budget as at the end of December 2019.

RRF

The Resource Recovery Facility residue tonnes are above phased budget (4,922t) due to the more than the contracted 25,444 tonnes being delivered to the facility year to date.

Trade & Casual

The Casual and Trade tonnages are 2,009 tonnes lower than forecast for the financial year as trade and cash customers find alternative waste disposal solutions.

Overall for the period ended 31st December 2019, the tonnes received are 13,872 tonnes below what was budgeted.

Guidance from Office of Auditor General and Department of Local Government, Sport and Cultural Industries

Item 9.4

APPENDIX NO. 7

Item 9.4

9 January, 2020

Office of the Auditor General 69 Wellington St, Perth WA 6000

Dear Sir/Madam,

The Mindarie Regional Council (MRC) seeks guidance with reference to the practice of reporting audit committee minutes to its Council.

The MRC current practice, in order to comply with its existing Terms of Reference (included as Appendix 1), for the Audit Committee, is to present any reports and recommendations of the Audit Committee to the next Ordinary Council meeting.

The Terms of Reference make no reference to the *minutes* of the Audit Committee and how those should be presented to Council, or if they are to be presented at all.

In practice, the MRC's Audit Committee has not historically prepared any reports. It has made recommendations in respect to the following areas:

- Appointment of an external auditor
- Appointment of an external audit committee member
- Adoption of the annual financial report
- Adoption of the annual compliance return

Each recommendation of the Audit Committee is presented to Council for noting, endorsing or adoption as appropriate.

The unconfirmed minutes of each audit committee meeting are included in the following ordinary council meeting agenda within the members' information bulletin with a recommendation that Council receives the report.

These same unconfirmed minutes are presented to the next audit committee meeting for adoption.

As a Regional Council, MRC holds six ordinary council meetings per year and three audit committee meetings.

Local Government Operational Guidelines – Number 09, Audit in Local Government, (revised September 2013), (included at Appendix 2) provides guidance on the operation of audit committees in Local Government, and was used as a reference guide in developing the MRC's Audit Committee Terms of Reference.

In particular, page 10 of the guide as relates to reporting recommends that: "Reports and recommendations of each committee meeting shall be presented to the next ordinary meeting of the Council."

This is the exact wording that has been used in the MRC's Audit Committee Terms of Reference.

At the MRC ordinary council meeting of the 12 December 2019, a recommendation was resolved as follows:

That Council:

(a) REQUESTS the CEO to write to the Office of the Auditor General to obtain guidance as to the status of all previous Audit Committee meeting minutes, which were contained in previous Member Information Bulletins for noting, and seeks guidance as to whether they should be brought to the next Ordinary meeting of Council for endorsement.

We seek your guidance with regard to this matter, our next Ordinary Council Meeting is scheduled for 27 February, 2020 and would be appreciative if this guidance could be received by 15 February 2020 to enable inclusion into the ordinary council meeting agenda.

If you require any further background or information, please do not hesitate to contact me on 9306 6305.

Yours sincerely

Dear Ms Slater

REPORTING OF AUDIT COMMITTEE MINUTES TO COUNCIL

Thank you for your letter of 9 January 2020 seeking guidance on the practice of reporting audit committee minutes to council.

It is not common practice to submit the minutes (or draft minutes) of an audit committee meeting to the board, council or governing body. However, as with any sub-committee it is common practice to submit a report to the governing body. The principles of what the report contains, is for those committees to agree between themselves.

The practice as you describe for the Mindarie Regional Council where the audit committee submits any recommendations to Council is what we normally see elsewhere.

I hope this information is of assistance.

Yours sincerely

Hi Andrea

The Local Government Act 1995 and associated regulations do not specifically require minutes to be submitted to Council.

It could be considered good governance and/or best practice to provide committee minutes to the next ordinary council meeting and I understand the Regional Council is already doing that via an information bulletin with a recommendation that council receives the report. If the Audit Committee Minutes were submitted to Council in a separate item, the recommendation would still to be to receive the report and that has already occurred.

I note the Regional Council resolution was whether the minutes needed "endorsement". Only the Audit Committee can confirm it's minutes, so committee minutes are normally referred to council for information. If any actions arising from a committee meeting require endorsement by the Regional Council, it suggests they should be dealt with as a separate item, which I understand the Regional Council is already doing.

At the MRC ordinary council meeting of the 12 December 2019, a recommendation was resolved as follows:

That Council:

(a) REQUESTS the CEO to write to the Office of the Auditor General to obt guidance as to the status of all previous Audit Committee meeting minut which were contained in previous Member Information Bulletins for noti and seeks guidance as to whether they should be brought to the n Ordinary meeting of Council for endorsement.

I trust the above assists in answering your query.

Regards

Alan Carmichael

INVITATION

On behalf of the Organising Committee, we take great pleasure in inviting you to join us for the 2020 AORA Annual Conference – Pathways to Sustainable Growth, to be held at the Crowne Plaza Hunter Valley from 1 - 3 April 2020.

With presentations from domestic and international experts and Australian industry leaders, we will explore the theme of this year's conference: Pathways to Sustainable Growth. The three major segments to be explored include the vision and long-term strategy for the industry, methods to engage the community in improved outcomes, and the continued effort to build best practices and a knowledgebase around effective and profitable organics recycling.

This event will provide industry stakeholders with access to prominent experts in the field of organics recycling as they share their expertise and knowledge, demonstrate their apparatus and techniques, and showcase their innovative ideas.

Delegates will be spoilt for choice with a variety of presentations, panels, equipment demonstrations and networking opportunities alongside a comprehensive trade exhibition.

We invite you to take advantage of early booking discounts and register as soon as possible.

We look forward to meeting you in the Hunter Valley this April.

ABOUT AORA

The Australian Organics Recycling Association (AORA) works on behalf of its members to raise awareness of the benefits of recycling organic resources.

It aims to act as an advocate for the wider organics resource recovery and beneficial reuse industries, and to represent their views in a constructive dialogue with policy makers. The Association envisages an industry in which best practice is shared, standards are maintained and surpassed, and a positive contribution to safeguarding the environment is made.

The Association consists of a national body represented by a Board. State divisions operate in defined geographical areas (e.g. states or territories of the Commonwealth of Australia), managing their operations relevantly to their region. The AORA Board provides coordination across the divisions and a means of addressing state and national matters, as well as being the administrative managers of the business.

The Conference

The AORA Annual Conference is the principal conference in Australia for the recycled organics industry. Each conference is a forum for education, discussion and networking related to Organics Recycling. It is also an opportunity to celebrate outstanding achievements in the industry.

The AORA Annual Conference features workshops, presentations, social functions and an equipment demonstration day. This is an opportunity to network with industry leaders and gain insight to the latest achievements in the Organics Recycling Industry.

The first AORA conference was held in 2013 in Sydney and is now run annually, rotating the location around Australia.

KEYNOTE SPEAKERS

Jeff Lowenfels

Author - The Teaming Series Books on Organic Growing (USA)

Jeff Lowenfels is the most humorous and entertaining lecturer on the circuit. He is a reformed lawyer and author of Timber Press' award winning and best-selling books, Teaming With Microbes: The Organic Gardener's Guide to The Soil Food Web and Teaming With Nutrients: The Organic Gardener's Guide to Optimizing Plant Nutrition and completing the trilogy, Teaming With Fungi, The Organic Grower's Guide to Mycorrhizae.

Jeff's new book was released in October and is called DIY Autoflowering Cannabis, published by NewSociety.

Lowenfels also pens the longest running garden column in the world and is a highly respected and popular, garden writer. He is the former President of the Garden Writers of America, a GWA Fellow and in 2005 was inducted into the GWA Hall of Fame, the highest honor an American garden writer can achieve.

Most important, Jeff is the founder of a now national program that started as "Plant a Row for Bean's," the soup kitchen in Anchorage, and is now "Plant A Row for The Hungry." The program is active all 50 states and Canada and has resulted in millions of pounds of garden produce being donated to feed the hungry every year.

Jeff is as passionate about "Plant a Row" as he is about organics. He encourages gardeners everywhere he goes to participate in the program and constantly reminds his fellow garden communicators of the pressing need to solve the hunger problem.

Aurel Lübke

CEO - Compost Systems (Austria)

Aurel Lübke, CEO of Compost Systems - based in Wels, Upper Austria, has been working in the field of waste management, specialising in composting, for more than 30 years.

After concluding his studies in Mechanical Engineering, Aurel started his first composting in 1989. In 2002, he established "Compost Systems GmbH" consulting engineers, specialising in waste management, the company has designed over 100 biological treatment facilities for clients around the world in various fields including municipal, industrial and agricultural organic waste streams.

| | Compost is an important tool in our soil regeneration and carbon farming programs, however, the value proposition for use of compost in broad-acre cropping remains elusive. This presentation reports on good progress to date. |

POSTERS

Food Waste Collection Systems in MUDs, a Review Maya Deacock, MRA Consulting Group

Food waste collection can provide challenging for local authorities, with multi-unit dwellings presenting their own issues to overcome. MRA has conducted a desktop review of food waste collection in apartment buildings to determine different collection systems and their strengths and weaknesses. This presentation provides a brief overview of the systems and presents the lessons to be learnt for implementation of similar systems in Australia.

Trialling FOGO in Alice Springs Maya Deacock, MRA Consulting Group

Alice Springs Town Council have identified the separation of organics from landfill as a major action to reduce greenhouse gas emissions for the region. MRA are assisting Council conduct a two-phase FOGO collection and processing trial. This presentation outlines the trial's progression and encourages small isolated regional councils to incorporate FOGO services for greater environmentally sustainable socioeconomic outcomes.

Carbon abatement from organics diversion Robin Gonzalez, MRA Consulting Group

Waste contributes to approximately 3.7% of Australia's greenhouse gas emissions, which are mainly generated from food and organic waste. The Clean Energy Regulator has created the Source Separated Organic Waste (SSOW) method to incentivize proponents to divert organic materials from landfill. MRA will provide an overview of the benefits associated with the SSOW method.

Fertilizer value of wastes andtheir corresponding biochars Md Zahangir Hossain, GCER - University of Newcastle

The surplus manure and biosolids can be managed through biochar production to make them as potential fertilizers. These wastes are rich in plant nutrients, and after synthesizing biochar these biomasses became enriched with remarkable nutrients (particularly N, P and K) and high pH values as well as reduce heavy metals availability.
